Dear Mr. Bellefleur,

RE: Notification of Product Status
Rust Anode Primer

Thank you for your application, submitted on July 6, 2026, on your Zinc coating: Rust Anode Primer.

We have evaluated your application and the above referenced product will be included in the Manitoba Transportation Infrastructure (MTI) internal Product Availability List, effective immediately. Use of products on this List for Department projects will be at the discretion of the Department. Inclusion of your product on the MTI Product Availability List does not guarantee that it will be used on Department projects. However, the Department may proceed with a trial installation of the product should a project arise that the Department considers an appropriate candidate.

The Department may also require further testing or resubmission to maintain the status of the product(s) on the Product Availability List.

Sincerely,

Evangeline Murison
